I live on along SMC in Sitka, and I would like to see more improvements on our little road here in Sitka.

I do not travel out to the end of the road, because the road is very bad out there. That road needs to be re-paved VERY BADLY.

I use to live in Big Lake, and I saw the Glenn Highway re-paved every year.

We just want that road repaved once, so we can use it every once in awhile, without having to worry you are going to land in a huge pot hole, or lose control of your car while driving on the worn highway.
